THE REPUBLICAN TICKET

For Mayor ALLYN L. BROWN For Aldermen GUY B. DOLBEARE WILLIAM H. ALLEN For Councilmen JOHN E. VAUGHN FRANK L. ARNOLD JOSEPH C. WORTH EDWARD CROOKS For City Clerk ARTHUR G. CROWELL For City Treasurer WILLIAM CARUTHERS For City Sheriffs GEORGE W. ROUSE CHARLES H. RAYNES For Water Commissioner HUGH BLACKLEDGE

VOTERS SHOULD DO THEIR DUTY Having placed before the citizens i

tration that it wants, the republicans have faithfully performed one duty,

ing it to others to say who shall be entrusted with the city government, and then set up a howl because matters

go wrong. A city election is one that everybody should be interested in. Matters in which everyone is directly con-cerned are involved and when it comes to city government the best is none too good. The republican ticket has been named with that end in view and it can and will be accomplished if the voters do their duty.

With the republicans united, and proud to stand back of a ticket that is meritorious from top to bottom, which list of candidates is made up of substantial citizens and men of affairs, there can be no question of the result if those possessing the right of suffrage go to the polls and act for the best interests of the city.

### BRANDEIS' CONFIRMATION.

His appointment by President Wilson having been confirmed by the senate by a vote of over two to one, Louis D. Brandeis will in all probability be sworn in as a member of the United States supreme court before it adjourns for the summer. It was not without a long and hard fight, both for and against the approval of the nomination, by men of prominence on both sides that favorable action was taken, and while this is in accord with the advice of those who supported Mr. Brandels there was nevertheless a strong array of eminent men whose advice was equally strong the other

Mr. Brandels will be the first Jew to on the bench of the highest court in the country, but that in no way en ered into the opposition. It was his liness for the position which was unier consideration. It has long been mown that he held radical ideas and hat he had shown little evidence of he judicial temperament which is exsected to be possessed by men who are selected to place an interpretation ipon the laws of the land, and from whose decision there is no appeal. Mr. Wilson, however, considered that he was the one man in this country of 00,000,000 who was best fitted for the racancy and the action of the senate permits of the test being made which being centered upon the battlefields of vill determine it

Inasmuch as Mr. Brandels' selection ias met with approval it is to be discerely hoped that he will accomplish all that is expected of him. The ustice-to-be knows what is considered to be his weak points and he has he opportunity to bolster them up nd justify his choice. For the sake of the country it is but proper that is should have the nation's best wishes n this respect.

## MORE DREADNOUGHTS.

Senator Tillman has of late become n enthusiastic advocate of a strong avy. He recognizes the importance f bolstering up this first line of deense and of doing it while there is ime and not waiting until trouble breatens and until it would be too

ate to do anything effective.

Thus when he announces that he is olng to make a fight in the senate

tie cruiser, making six in all and two dreadnoughts at will be recognized that such an addition is not only but that it is more nearly h accord with the recommendation of the naval board. Many in the house were favorable to the addition of the dreadnoughts but were beaten out by a narrow margin, although it is to the credit of that body that the provision or submarines was more than dou-

Though Senator Tillman declares that he is not taking his stand because of the recent clash in the North sea, since there is not enough data available from which to draw definite lessons at this time, the part which the battle cruisers and the dread-noughts were called upon to play can-not, however, fall to make an impresion upon those who are considerin the increase of naval strength, and Chairman Tillman of the senate naval committee ought to be able to convince his fellow senators that the problem of preparedness ought not to be left half solved.

This country needs the battle cruis-

ers for the speed which is thus ob-tained in addition to the fighting abil-ity of such ships, and it likewise has not been shown that we can get along without the dreadnoughts. The Brit-ish had them and had they been closer so as to have been put into ac-tion before the German fleet turned the enemy might not have suffered so ightly as it did.

The polls in the four city districts ill be open today from 9 a. m. until p. m. for the city election.

BRITISH CLAIM OF VICTORY. It is an optimistic attitude which the British take as the result of the big naval battle off Jutland. They do not deny that they have experienced some big losses, but for the most part, as Lord Beresford says, they are ves-sels which they can afford to lose, and the result of the clash is by no means looked upon as a defeat to say nothing of a disaster. On the other hand it ienced much greater losses than it has admitted, the British claiming that at least six big ships were sunk while there was a total of 18 put under water. How this will work out re-mains to be seen, for it may simply be another case like that of the Warspite and Marlborough, which the German claimed to have sunk but which the British insist have returned safely to

It is, however, impossible to deprive the Germans of the credit of their ac-Having placed before the citizens a ticket which commands the utmost confidence, and which is bound to convince the voters irrespective of party that those who have been named thereon can be relied upon to give the city the kind of an administration that it wants, the republicans in men as well as ships. That they but it is highly important that this ticket should receive the support that it deserves. That it will get it is be the reason that there were any Germandship and the support of the reason that there were any Germandship and the support of the reason that there were any Germandship and the support of the reason that there were any Germandship and the support of the reason that there were any Germandship and the support of the reason that there were any Germandship and the support of the reason that there were any Germandship and the support of the support

EDITORIAL NOTES. As long as they never had to, many people never half appreciated the benefits of walking.

### WOMAN IN LIFE AND IN THE KITCHEN

THE HOUSEWIFE. Court plaster can be used the sar way when a tear must be mend quickly.

To Mend or Patch Clothing Without Sewing—Use mending tissue. It can be bought at most drug stores and at the notion counter in department stores. When any part—a pocket, for instance, has come loose (in raincoats this happens very often)—cut a piece the size needed, slip between sament and loosened part and press with a moderately bot iron.

In patching have the tissue as large as the patch, slip between patch and sarment and press. This will stick and last a long time. The fron must not be to hot nor left on too long.

This is especially good for raincoats or the bottoms of men's trousers.

When making pockets in the aprons of the little girls—and what little girl is not made happier with a pocket?—make two pockets, baste one on the outside, the other right under it on the wrong side; stitch them on together. This prevents the pockets from tearing at the top.

When making ginger cookies, use cold coffee in place of water. The sub-stitute makes a delicious cake.

It is often convenient to use a tall vase when flower stems are short, but they go down too deep. To prevent this fill the vase with a paper twisted in a loose roll. It will bold the moisture if replenishing the water should be forgotten, too, which is a double

To clean jet, use the softest brush that can be procured and remove the dust in the most gentle manner from the carving; then touch the jet with a little oil on clean cotton wool and polish with a chamois. Great care should be exercised, as the carving on let is briftle.

An enamelled battitub can be cleanan enameled patting can be clean-ed very easily with a cloth dipped in turpertine and salt. The tub should first be perfectly dry, and after the so-sion has been applied it should be washed with clean, warm water.

Dingy towels may frequently be restored to normal whiteness by putting in a kettle of cold water, adding white soap shavings and lemon juice, and letting come slowly to a boil. Rinse in tepid water, then blue water and thang in the sun.

Very frequently when separating the whites from the yolks of eggs the yolk becomes broken and falls into the white. Dip a cloth in warm water, wring it dry and tuch the yolk with a corner of it. The yolk will adhere to the cloth and may easily be removed.

British reinforcements had arrived may it deserves. That it will get it is probable but there should be no disposition to neglect the further duty of getting out the vote.

Unfortunately it is the stay at homes who decide many elections, but with such an important matter before the clines as the conduct of municipal affairs and the demand for a businessilke administration of the reaponsibility which falls upon each and every individual.

It doesn't represent good judgment to find fault with the way in which the fathing of the reaponsibility which falls upon each and every individual.

It doesn't represent good judgment to find fault with the way in which falls upon each and every individual.

It doesn't represent good judgment to find fault with the way in which the fall are the fact of the component of the reaponsibility of position to lose the vessels then get a clean the control has not been weakened and every individual.

### HEALTH AND BEAUTY

life or property.

Before and after a long tramp rub the limbs with olive oil. Rub the back parts of the thighs, the knees and the calves thoroughly. Soak the feet in hot water and rub the soles with

Red noses are not attributes of beauty, and are brought about by a variety of causes, such as poor circulation, tight clothing, bad indigestion, alcoholic stimulants, etc. In all cases the cause must first be determined before a cure can be effected.

A doctor is quoted as saying that a handful of peanuts eaten before retring will quiet the nerves of the stomach. The same authority also claims that a few peanuts eaten after each meal will aid the digestion, provided they are freshly rogsted.

To make the hair stand out prettily around the face, dry it hanging over the face instead of down the back. Lie face down across a bed and let the hair drop over your face down on to a clean towel laid on the floor. Fluff the hair around the face with the flugger time. finger tips.

A frequent footbath is not only soothing and refreshing but is beneficial to the health of the feet and that of the entire system. The foot is an excretory center and by keeping the pores clear and free the waste matter of the system is removed. A good footbath for nightly use is composed of water as hot as it can be borne in which a little powdered boracte acid has been dissolved. Let the feet soak for five minutes, wash them off in cooler water and finish with a good brisk rubbing of cold cream.

This is one of the days in the year when every republican and every voter who stands for proper city management should go to the poils and do his duty.

Shackleton was able to claim a little bit of attention even though the eyes of the world are for the time being centered upon the battlefields of Europe.

Now that we have gotten to the point where the president's speech is referred to as weasel words, it will not be long before that short and usiy one will be handed out.

Tomestoes are so benedicial in their effect on the liver that they have been aptly styled the "vegetable calomel." Celery is an excellent nerve tonic and is good for people suffering from rheumatism. Watercress is credited with having tonic properties. We have always known that parsnips and carreason for this is that both vegetables contain arsenic, which has an almost contain arsenic, which has an almost entered to as weasel words, it will not be long before that short and usiy one will be handed out.

AN EMERGENCY BAG.

### AN EMERGENCY BAG.

Germany makes no bones of telling what punishment it inflicts upon the British, but it is stlent on that handed out to the commander of the submarine whe attacked the Sussex.

Pull the republican lever on the voting machine. It will cast your vote for an efficient and businessilke administration of city affairs such as every citizen should be eager to get.

If action on the naval bill had been deferred a few days, the way in which warships can be put under water by wholesale might have convinced those opposed to new draadnoughts that it is well enough to have a planty or hand.

An emergency bag is a very convenient addition to the medicine closet. It should be made of two exirips of heavy linen or denim, about six or seven inches deep, the back plece to be about 18 inches long and the front 27 inches; the two strips should be bound together at the ends and across the bottom, then stitched to form several pocket (eight or nine), a flap should be buttoned over the top, and each pocket labeled with indiction to the medicine closet. It should be made of two exirps of heavy linen or denim, about six or seven inches deep, the back plece to be about 18 inches long and the front 27 inches; the two strips should be bound together at the ends and across the bottom, then stitched to form several pocket (eight or nine), a flap should be buttoned over the top, and each pocket labeled with indiction to the medicine closet. It should be made of two exirps of each 127 inches; the two strips should be bound together at the ends and across the bottom, then stitched to form several pocket (eight or nine), a flap should be buttoned over the top, and each pocket labeled with indiction to the medicine closet. It should be buttoned over the top, and each pocket labeled with indiction to the made of two extent inches deep, the back plece to be about 18 inches long and across the bottom, then stitched to form several pocket (eight or nine), a flap should be buttoned over the top, and each pocket labeled with indiction to the condition

Hotes in walls can be stopped with plaster of paris, but mix this with vin-egar instead of with water or it will harden so quickly that it will be diffi-cult to manipulate.

Miss Mabel Garrison, Secretary Oklahoma State Board of Registration for Nurses, says, "The skin of an aged man of 72 years was simply raw from chafing. Sykes Comfort Fowder gave immediate relief and quickly healed his sore, chafed skin."

That's because of its superior medication, which combines healing, soothing and antiseptic qualities, not found in anything else. 2b cts. at all dealers.

# NOT MUCH FUN TO IT

Russians.

DO YOU enjoy carrying a pail of coal? Is there any fun in sifting the ashes?

Can anyone get any enjoyment out of cooking a meal in a roasting hot kitchen?

In the smothering heat of the Summer is there any pleasure in constantly living in coal dust, coal smoke, and rub, rub and scour from morning till night?

Does anyone really love hard work as well as that? Don't we all like to take life easy and make it as

comfortable as possible? There is only one way to do that—banish the coal stove and all the drudgery and hard work goes with it. Then bring in the GAS RANGE and with it some comfort and economy, for not only is gas more convenient than coal but it costs less to operate.
